

## FIGHTER SWEEP ATTACK IN THE WEST.

This is the start of one of those Fighter Sweeps that are harassing the Luftwaffe in Western Europe: proving to the world how Britain's air strength is growing: taxing the resources of the German Air Force that not so long ago was the most powerful ever known. The men who fought over Britain in the air battles of 1940 have driven the Nazi pilots back. ~~and~~ we have recorded an encouraging message from Air Marshal Sholto Douglas, Air Officer Commanding-in-Chief Fighter Command.

Day after day they ~~are~~<sup>repeat</sup> this business of carrying the war to the enemy: as soon as one sweep returns, other squadrons are setting out ~~to~~<sup>do it</sup> wishful thinking to say that Goering is feeling a draught behind.
