

## U.S. DIPLOMATS HOME.

905

"Home again" is the heartfelt sigh of 1500 Americans landing at Jersey City; they have come from Japanese internment camps under diplomatic exchange, in the liner Gripsholm. The Ambassador from Tokyo has spent two years in Nippon's capital-- he must be glad to see once more faces that smile to show feelings of friendship -- not to conceal feelings of hatred.

## U.S. TROOPS IN TRINIDAD.

More evidence of ~~xxxxxx~~ the all-for-one and one-for-all nature of the United Nations' War effort; American troops in Trinidad, British West Indies. For one year Britain stood in the path of the Nazis alone, when all the world was either beaten or not yet ready to start fighting. Now we have powerful allies in every quarter where they may be needed.

## CAPTURED GERMAN TANKS.

Tanks captured from the Germans in Libya, have come to London on exhibition; they are Mark II, Mark III, and Mark IV -- and most of them have been put out of action by the despised two-pounder gun. They are of the type now in use in Egypt and Russia. Hitler had dreams about Nazi tanks in London; too bad he isn't here with them. He could pass the hat round, ~~-----~~ with Mussolini sitting on top.
