

## MODERN CHILD WELFARE.

This is where they put the little darlings when Mother doesn't want them fussing round her when she's really busy.

At this child welfare centre run by the ~~London~~<sup>Midland</sup> County Council, ~~they~~ they've got the right idea -- and what lovelier place could they have than this baby paradise of see-saws and swings?

At dinner time, there's a rush to collect knives and forks and plates, and settle down to the really serious business of the day

~~all the children~~  
For ~~the very little ones~~, ~~there's~~ there's a regular toilet parade -- the teeth must be examined, brushed and cleaned, especially ~~at the end of the day~~<sup>night</sup>.

Nothing is left to chance here, and the tiny tots have a general brush up given them by a band of devoted ~~welfare~~<sup>Feminist</sup> workers.

Then they're tucked up in their little beds and we wonder what they talk about after lights go out.

And there's no need to send them away to the sea, -- for they have ready-made sand .

It's an enchanting fairyland of spades and buckets -- a holiday by the sea, -- away from the sea.
