

TWO MORE ADVANCES IN THE AIR.

For the first time some of the secrets of Allied air bases in China can be shown upon the newsreel screen. These are the airfields, built by the labour of hundreds of thousands of Chinese workers; from these, under the Command of General Wolfe, fly the super-Fortresses that bomb Japan. It's unwise to prophecy about this war; but the indications are that these enormous bombers will play a big part in the final defeat of Japan.

Now from Wright Field in America --- a weird member of the Helicopter Family. The army is testing it --- notice the two lifting rotors. The body, of new plastic, facilitates observation; our future clothes may be made of plastic also; but not to facilitate observation.
