

Roving Camera--

Sept 4th. 1953.

Experimental Plane--

Hampshire-

Boscombe Down- / where something new in aerial design- the Short S.B.5 ~~aircraft~~ comes out on the tarmac for a test flight.

Designed as an adaptable wing-research plane, to investigate problems in the handling of swept-back wing aircraft, the S.B. 5 should prove invaluable to p lanes engaged in supersonic flight

~~It is expected that the aircraft will be used for a number of years.~~

Ionian Isles-

Greece- where the inhabitants of the Ionian Islands- stricken by the recent violent earthquakes- are visited by King Paul and Queen Frederika- who wanted to find out for themselves the extent of their needs.

By their kindly encouragement, the Royal visitors will help the islanders to renew their quest for life / ~~and~~

Cycle Race-

Switzerland-- where ~~sixty~~ the world cycle championships are well under way, as over 20 international wheelers gather speed through the countryside.

This is what it looks like from a passing helicopter, as the speedsters race through the lines of ~~the~~ interested spectators. Villages are quickly left behind-- and still they sweep on-- but now it's near ~~the~~ journey's end.

And it's Italy's veteran ~~ace~~ ace- Fausto Coppi- who's ahead of them all- Winning the most coveted honour of the cycling world - for the first time in his career
