

Red Army Day

Berlin - ~~was~~ In the Eastern Sector of the City, Russian troops are joined by women and children for the Red Army Day Parade.

~~and~~ In solemn procession, they make their annual pilgrimage, through the Brandenburg Gate, to the Russian War Memorial in the British Zone - to honour those ~~of the~~ who died in the Second World War.

M.I.G. Tested

America - where a Russian-built M.I.G. fighter undergoes extensive trials at Dayton, Ohio. Last September, a North Korean pilot delivered the plane into U.S. hands to claim a huge reward. Following the trials, U.S. experts claim the M.I.G. is inferior to top American fighters.

Planes to North Africa

Bermuda - and high above the island, an entire fleet of B.47 jet bombers is refuelled in mid-air by huge flying tankers. The planes, forty-five in all, are flying from Louisiana to French Morocco on a sixty day training operation. Providing mid-air petrol station service is a tricky manoeuvre. But here they are, arriving in North Africa, with parachute breaks to check their landing speed.

Cross Country

London - ~~was~~ The charge of the "Light of Foot" - over 700 of them - competing in the Southern Counties Senior Cross Country Championships, at Parliament Hill Fields.

Run over a testing course of ten miles in this hilly part of London, the pack soon becomes strung out over the broad heath.

Almost from the start, it was a ~~two man~~ duel between ~~Frank Sando~~ Frank Sando, <sup>No 14</sup> and ~~Ken Norris~~ Ken Norris. <sup>No 588</sup> In the run-in, ~~Norris~~ Norris (making his first appearance over ten miles) found the better finishing speed, to win by five seconds - his <sup>Successive</sup> sixteenth victory, ~~in succession~~. South London Harriers won the team race.
