

Marshal Juin

Normandy- where Marshal Juin is staying, following his dismissal from his French military posts, for failing to appear before the French Premier to explain his recent controversial speech on the European Defence Community.

The dismissal of the Marshal
~~The~~ dismissal which was to have angry repercussions at the Arc de Triomphe when ~~where~~ Prime Minister Laniel and Defence Minister Plevin - were honouring the country's War Dead in Indo-China...

Angry demonstrators attacked the ministers
~~The Ministers were attacked by an angry crowd of demonstrators calling for~~ recent the re-instatement of the General. Scenes without parallel in French history.

Meanwhile, France, and indeed the world is proud of the heroic stand in Indo-China by the beleaguered defenders of Dien Bien Phu, against *MINH* overwhelming Viet-~~ese~~ forces.

French men and supplies have been dropped - while deadly Napalm bombs blitzed enemy *troops* ~~forces~~ - massing for another attack on the gallant garrison.
