

Greek Earthquake--

2122

May 4th. '54.

Greece-- Rocked once again by a ~~violent~~ violent earthquake-- this time in the central parts of the country.

At least eleven people lost their lives-- with over 20,000 made homeless in eight towns of the Province of Thessaly,

Rescue teams were rushed to the stricken ~~areas~~, ^{inhabitants} with first-aid supplies -while public works experts were sent to repair roads and destroy collapsing houses.

As soon as ^{THE} news of ~~the disaster~~ reached ^{HIM}, King Paul of the Hellenes interrupted his tour of Thrace, and hurried to the distressed areas.

Twice within a year has Nature struck a savage blow upon the lovely Grecian countryside. ~~The extent of this latest disaster is comparable only to the devastation of the Ionian Islands on the west coast last summer.~~

^{TRYING TO REBUILD}
The heart-breaking work of ~~rebuilding~~ lost homes out of the ashes of the old will soon begin.

Greece has the sympathy and encouragement of the entire world, as she ~~starts~~ starts afresh - to ~~put her house in order.~~

REPAIR A TRAGIC LOSS.
