

U.S. Warships

Scotland: American warships in the Clyde provided a holiday treat for over a hundred youngsters from the "Orphan Homes of Scotland," who were given the freedom of the battleship "Wisconsin!"

And though the children were beaten by this Chinese crossword-puzzle, (the ship has just returned from the Far East) they won hands down when it came to ~~EATING NO DRINKING~~ ~~licking away ice cream etc...~~

There were Christmas presents for all - in keeping with our wintry summer a kindly gesture by the American Navy boys... No wonder the kiddies sang "will ye no come back again" as they waved good-bye.
