London-- The country comes to town-

Aug 19th. '55.

Fragrant blooms brought a real breath of the garden to the 1955 Country Show- (organised by the "Evening News"), which opened at Olympia. Here, city ~~residents~~ ^{DWELLERS} could learn much of the skilful art of rural craftsmen, who fashioned those brooms to brush away the ~~autumn leaves~~ ^{AUTUMN LEAVES}. Over at near-by Hyde Park, the famous Costers' horse and cart parade was ~~in full swing~~ ^{TAKING PLACE,} as judges cast ~~their~~ ^{DISCERNING} eyes over the entries.

Back at Olympia, the "Ponies of Great Britain Club" competitions were ~~in full swing~~ ^{IN FULL SWING, WITH CONTESTANTS FROM OTHER EVENTS TAKING A GREAT INTEREST.} Plenty of thrills in the jumping, ~~as~~ ², as there were five candidates with clear rounds.

And the result was a draw between the two Pats- Miss Moss on "Danny Boy", and Miss Newton on her father's ^{horse} "Waving Corn".

~~EXHIBITORS FROM EVERY WALK OF LIFE CAME TO~~ the New Horticultural Hall, Westminster, where the Model Engineer Exhibition was a winning holiday attraction. And though this motor-cycle combination was scrutinised by the Long Arm of the Law, he ~~could find~~ ^{could find} "No Parking" violation.

Mr Walleter of Brighton made ~~this~~ ^{this} ~~church-organ~~ in his spare time. It cost only £10.

No need for railway-engine fans to hang about draughty stations, when they can see the real thing in comfort under cover.

~~expect Junior to lay-off~~
