News Highlights- ctd-Cypess Cyprus Gardens Skiing-

Florida -- He's off with a flying jump, at the sunny Gyprus Gardens, where they're holding the water-skiing championships.

Now two of them do it with a twist- just as easy as winking- though it's not as easy as that!

Let's take a holding the water-skiing championships.

Let's take a holding the water-skiing championships.

this summer's holidaymakers in Britain shiver with envy

Home-made Plane-

Buckinghamshire— 35 year-old Richard Potter spends his sparetime building a plane in the back garden with of his home at Bourne End. The aircraft has a 25 foot wing—span, and so far, has cost only £20- though the engine has yet to be bought and fitted.

And a proud small daughter travers how her father the is learning to fly at Denham, flew solo in just over six hours.

Valiant Bomber-

Weybridge-- Curtain-raiser to the Farnborough Air Show is a taxassif new take-off aid- known as the De Havilland "Super Sprite" Rocket Engine, which is fitted under the wings of a Valiant Bomber.

The engines augments the aircraft's power, thus enabling it to be used pperationally from airfields that would previously have been too small.

And what a take-off! With the help of this rocket-booster, the "Valiant"-(designed to carry nuclear weapons) shows its powerful paces.
