Atlantic - Rescue at Sea.

Rescue drama in mid-Atlantic. Four hours after receiving distress-signals, a search-plane locates a stricken U.S. Strato-tanker - slowly sinking 150 miles East of the Azores. Prepared for just such an emergency, the plane unloads additional survival gear for the stranded crew. For the seven Survivors floating in their life-raft, there are anxious hours ahead. The weather is deteriorating, and the heavy wind-swept seas lessen their hopes of rescue....(BRING UP). But modern scientific aids are on their side. Radio sends the Norwegian tanker "Sanderford" rushing to the spot: and a lifeboat completes the rescue - seven hours after the crash...(BRING UP).
