More & More

Dutch Women are ~~becoming~~ becoming ~~the~~ fashion conscious and Dutch designers, follow French and Italian trends very closely.

Dutch women are very fur conscious and many of them own fur coats.

Leading fur designer Wim van Daal thinks that fashion in fur is important and in this collection he stressed the Empire Line in his Models.

No 18 Cocktail

Prettiest number in the show was Ferry Offermann's Pink velvet cocktail dress called Flower From Holland again accenting the Empire Line with it's high Commberbund and low cut neckline.

No 35 Slinky

Here's a really sophisticated evening gown-- and watch how the model walks.

She and the other five leading Dutch models fairly slink round the room.
