

NEW GEORGIA.....MINDA PALIS.

First pictures of the U.S.Task Force on its way to attack MINDA, the great Jap Air Base on New Georgia Island in the Solomons....

Look-outs are on the alert and patrol planes go aloft to keep watch as the ships speed towards the island.

As night approaches the gunners stand by, for sunset is zero-hour,.....

Action! Cameramen film the bombardment from all angles, as evening fades to night.

Exhausted, but happy in the knowledge that they have played their part in wresting from the Japs the biggest enemy air-base in the South-West Pacific.
