WASTE PAPER TRAILER

A paper hanger hangs paper. What we want to know is what hangs a paper hanger. That's a big question. Here is part of the answer. Paper hangs a paper hanger. Every scrap of paper you put out for salvage helps to hang the paper hanger. When it's been made into shell cases, gear wheels, aeroplane parts, cartridge boxes and other articles of war. So don't just bring out the paper you see laying about, ransack your house, go through all your papers, give every scrap you can spare. Every scrap, large or small. Remember, paper wasted or left laying about helps the paper hanger to hang on, but when it's salvaged into the war effort the paper can help to hang the paper hanger.
