COMM...

Keep calm everyone, the disturbing events you have just  
witnessed are only what might happen if campaigns were not planned.  
Same too on the garden front. In winter supplies of fresh  
vegetables are short. This "Dig for Victory" leaflet No. 1 issued  
by the Ministry of Agriculture tells you how to plan your spring  
campaign so that you can have fresh vegetables from your garden  
next winter and all the year round. So remember.
