

LOURDES PILGRIMAGE

Lourdes, city of the miracle of faith is the scene of a great pilgrimage of youth. A thousand sick and crippled children, from Belgium, France and Holland, tread hopefully towards the shrine of Bernadette.

Moving force behind this spectacle of faith is Abbe Cullet, curate of an obscure church in Paris. Inspired by his teaching, thousands of children in every part of France join their prayers at this time with the appeals of their young comrades at the holy shrine.

France, passing through dark days on her journey to recovery, looks to these children as a spiritual force within the land, for they have learned that faith makes all things possible, that happiness is always in the heart of him who loves his neighbour as himself.
