

ICE CYCLES THRILL LONDONERS

For cold comfort in a heatwave, London orders the Ice Cycles. A hundred thousand pound revue fresh from a tour of America, it's the year's fastest, most colourful spectacle on the frozen arena. It's got everything - even a trio of acrobats - seemingly glued to the ice.

Now for the sensational "Rhapsodie Royale" - precision skating, in a complicated routine, that requires the grace and timing of the ballroom.

Make way for the Wild West - a square dance from the frozen prairie, with the only skating ponies in the world.

Last on parade - the Royal Canadian North West Mounties, stepping out to prove that they'll get their man - even on ice. It's a drill display that wouldn't disgrace the Guards.
