4. S.V. Statue. 5
5. S.V. Truman speaking:
6 'We believe that the plan for control of atomic energy, which has been worked out in the United Nations and has been approved by the overwhelming majority of its members, would be effective. The plan, therefore, has our support. It has our support, not because of its form or its words, but because we believe that it would achieve an effective control. The stakes are too large to let us, or any nation, stand on the pride of authorship. We ask only for a plan that will provide an effective, workable system. Anything else would be a sham agreement. 66
6. G.V. Audience applauds as Truman leaves dais. 4
