

AMERICASCOTCH OVER THE WATER

The scene is Princeton University. A reunion. So that explains the fancy costume he's wearing. No. It's not a class reunion, but a reunion with his girl. And that's not a costume, it's a wool tartan - the last word in fashions for Americans. Here is a travelling suit of authentic Cameron tartan.

But you haven't seen anything yet. Wait till they change their outfits. Yes, she's still faithful to tartan. But where's his? Oh, there it is. Wool slacks of rust, brown and white tartan.

She wears the Scottish Border Regiment insignia, authentic jewelry to match. But even this doesn't exhaust the possibilities in tartans.

Why for cycling, the up-to-date young man wears a --- yes, a tartan shirt of lightweight wool-worsted. And she, tapering tartan slacks.

Naturally, we saved the best for last. All right men, take a look: a dinner jacket of blue, white and black - if there is such a tartan. Yes, America has definitely gone 'all Scotch.'
