NEWS FROM U.S.A.

Marshal Tito is a guest aboard the American aircraft carrier "Coral Sea," in the waters off Split, Yugoslavia, and watches a display of combat tactics by the carrier's planes. Tito, a Communist who defies Russian orders, sees that America will strike hard - if need be.

California

America's giant jet helicopter, the XH-17, makes her debut before a crowd of air experts, including her builder Howard Hughes (wearing a hat). Now for the first flight of the helicopter, which America claims as the world's biggest and best. Standing more than thirty feet high, the XH-17 is powered by two modified turbo-jet engines.

Her rotor blades are a hundred-and-twenty-five feet from tip to tip. This mighty aircraft is the fore-runner of cargo-carrying helicopters for the American Army.
