ARGENTINIA DEMONSTRATION

Note: Cut Story- Copy of Movietone Commentary:-

Now, over to Argentina, where only recently vast crowds gathered in in the Plaza de Mayo (In Buenos Aires) to cheer President Peron.

Since this apparently festive scenes however , the country has been involved in a violent political crisis.

A big Catholic demonstration, held in defiance of a Government ban seems to have been the spark that touched off the anti-Peron revolt.

Conflicting reports followed thick and fast - that the Navy was leading the rebellion - that the rebellion had been put down.

Battles in this very Square were reported, while the world waited for the outcome and for the fate of Peron, virtual dictator for nearly ten years.
