**MARSHAL TITO VISITS VERSAILLES**

**Pool coverage serviced to all competition**  
**Positive developed: 123 meters - 410 ft**

By a wonderful sunny afternoon yesterday, Marshall Tito of Yugoslavia, visited Versailles Palace and grounds with his wife and many French officials. His seven day state visit has given way to protection measures such as France has rarely seen. It was under protection of heavy security guard by the French troops and police forces that President Tito and his wife went sightseeing yesterday and lunching at the Palace of Versailles.

The express highway to Versailles was closed to traffic for several hours while Marshal Tito and his party went to Versailles. The Bois de Boulogne through which Tito Party traveled on the way west of Paris was swarming with troops and police... The Versailles grounds which Tito had expressed a desire to see had been closed to public since the night before and nearly every tree was hiding a policeman...

The cameramen and photographers were not allowed on the Palace ground so this coverage only shows the visit of Castle itself:

- Arrival of Marshal Tito's car(armored and closed) at Versailles
- Arrival of Mrs.Brez Tito's car (open)...
- Marshal Tito is greeted by Mr.Bardonneuve French Minister of Fine Arts,
- party visiting Chapel
- various shots of Tito and his wife inside Chapel
- shot of Tito looking at floor and of mosaics he is looking at
- various shots of Tito, his wife and Mr.Bardonneuve, with Mr.Maladé Conservator of Palaces
- King Louis XIV'S bedroom, shots of party admiring furniture,
- Queen Marie Antoinette's bedroom, then the famous Mirror Hall
- Famous clock still in operation since it was built for Louis the XIVth, and man in charge of it giving details to visitors
- general views during visit in Marie Antoinette's room
- views during visit of gardens by Marshal Tito who said he had already visited the Palace three times, and preferred seeing the gardens and grounds. The visit is made by car while Mrs.Brez-Tito is staying inside visiting the Palace in details.
- Mrs.Tito then joined party outside and visit of grounds began & views of ponds and water works in operation during visit, and general views of Palace.

**VE-DAY CELEBRATION IN ALGIERS AND STUDENTS DEMONSTRATION**  
Also covered by Actualites Francaises and Fox  
Positive developed : 55 meters - 177 ft

Yesterday in the heart of Algiers while officials headed by Minister-Resident Robert LACOSTE, -accompanied by Michel Champeix Secretary of State for Algeria and Jacques Chevallier Mayor of Algiers - were celebrating the 11th anniversary of VE-Day, by laying a wreath at War Monument, a crowd of an estimated 10,000, mostly students who are on strike, madly demonstrated against French policies in Algeria and cried out against Mr.Lacoste requesting his dismissal.

The demonstrators hurled tomatoes, onions and stones on the officials - none were hit but police in the heavy cordon protecting them were plastered by tomatoes. The crowd booted and whistles continued even during the sounding of Taps, usually a moment of great solemnity followed by a minute of silence.

As police cleared a way permitting the officials to retire from the monument, Mr.Lacoste walked through to the crowd asking some young students whether they had been in a war, and yelled at them to demonstrate their patriotism by fighting in the djebels against bloody rebels killing women and children...

Police charged, swinging nightsticks energetically. Finally they cleared the area by hurling grenade after grenade of tear gas. A dozen arrests were made but no serious injuries reported. It was noted however that police wrath was more particularly directed against news photographers and cameramen...
