CAMPBELL TRIUMPHS AGAIN

Donald Campbell and his crew never lost patience during the long weeks of waiting. Now the speed-king and Leo Villa (chief mechanic) were satisfied that Bluebird was racing-fit, Coniston Water smooth and windless. Team work it may be, but it's the skipper, Campbell himself, who takes the terrifying risk. This time, Bluebird went like a dream.

Speed for this run, 243 miles an hour. In the other direction he went faster still, clocking more than 253.

He knew he'd broken the record he set last year; the new figure, 248.62 miles an hour. A great day for Donald Campbell and his friends Leo Villa and Dery Swann.
