✓
The Texas State Fair brings the Vice President and Mrs. Nixon to Dallas. Besides lending a hand in opening the big show, it's certain he is building his political fences a little higher. Republicans no doubt are also eyeing their chances for carrying Texas next year for the third consecutive Presidential election. Political observers report Mr. Nixon stands a good chance for support of the Texas delegation to the nineteen-sixty G.O.P. convention. As for the State Fair, it boasts everything — including a show window on the newest in automobiles. It'll be a year when compact models will share the limelight with the bigger cars — but Detroit expects all entries in the 1960 sweepstakes to build into a seven million car year.
