

POLICE HOLD ANNIVERSARY.

The motor cycle division provided the star item (watched by a big crowd) - President Gronchi included, in the 107th anniversary of the Italian Police Force. They gave an exhibition of brilliant riding. Filmed from high up they looked like something under a microscope.

Just suppose someone in the middle had a spill. Doesn't bear thinking about - unless you've been pulled up lately for exceeding the speed limit.

It all made a wonderful display. Rehearsing the show occupied most of their time for a month or more. A nice change for them - and the motorists.
