

MOTOR RACING; WHO'LL BE THE  
NEXT CHAMP.

A Motor Show with a difference at the Horticultural Old Hall showed the cars that put Britain on top of the racing tree in 1959; the Cooper Climax driven by Jack Brabham for example. Now something historic; the famous 1927 Delage, exhibited in place of a car withdrawn at the last minute. The BEM last year won the Dutch Grand Prix and was the first car ever to lap Goodwood at a hundred.

Vanwall is another household word; world-championship car in 1958. Now, a flashback to Aintree, last July. The great Stirling Moss, again contender for the top honour. Jack Brabham drove a Cooper Climax. All the best drivers were there: Manchester dentist Tony Brooks, and the popular Londoner, Roy Salvadori.

Brabham soon took the lead.

Stirling Moss held second place.

Jack Brabham was the winner. He went on to become champion driver. But he couldn't have done it without British workmanship and materials. Who'll be champion this year?
