Baby Hotel

In Hamburg-Volksdorf a Baby Hotel is the innovation of the day.

Baby-sitters are scarce and most expensive in the long run. And isn't it good for a mother to know that her child is in the expert care of a modern nursery. The baby-hotel is run by a children's doctor.

Modern methods of nutrition safe-guard the marplings. Parents can go on more or less lengthy travels without apprehension.

Here we really feel and can say "Everybody happy"
