

FOOTWEAR FASHIONS.

Boots, Boots, Boots: Big feet, small feet, glamorous feet; tired feet; neat feet. It takes all sorts of plates to keep the world on its toes. But how did they get in on the act? Ah, pigeon toes:

This hombre's lost his horse, and these fancy cowboy boots ain't exactly good for walking in. Still, they're his feet.

Seems to be a lot of strange folk about today with some even odder tastes in, or out of, footwear. And that's not all - get a load of that crazy hat!!

Ah. This is better. Now let's see something a little more normal. There seems to be a point to it all - if you're not a square. It's London Shoe Week and we were invited along to a preview of what's in store for the Bunion Brigade.

These pom-pom trimmed pair of feminine folly are called "Gamba".

Something new in calf-concealing calf.

Shoes can provide the crowning touch - or is it the Midas touch? Anyhow, we don't mean to be corny when we say fings in footwear ain't what they used ter be!
