

CINESOUND REVIEW. 1535:

SYDNEY:

Easter Show Puts Nation on parade;

GOING UP:

For Sydney, it's Show time again..... twelve days of fun and spectacle for the annual Easter parade of national wealth and production Threatening weather keeps down crowds for the first two days, but there are still more than a hundred and thirty thousand on the first Saturday to see the judging of the bulls.... if you like to think big..;

DOGS:

And the judging of miniature pooches if your slightly smaller minded!

CHOP:

And not only the side show spruikers get in for their chop.

N.G.

There's an impressive exhibition from New Guinea this year, and dad can get his own back on the kids by frightening the daylight out of them with masks like this! Who wants fairy floss!

AGRI:

The agricultural exhibits from the various districts always draw big crowds and the Western districts takes the prize again.

CROWD:

There's plenty to see... and plenty of people to see it all. But after walking for awhile, all kids want to do is to drink pop.

POP:

And all pop wants to do is drink beer....

MUM:

And all mum wants to do is find a seat and wish the whole family would take a powder!

COACH:

At night there's the spectacle in the ring of a race between COBB and Co coaches and bullock teams.

BUCKJUMP:

and the worlds best rough riders try to stay in the saddle DESPITE the angry broncos. Out they come one by one.... and one by one OFF they go again!

BUCK JUEP:

Yes sir, the Easter show is a real spectacle. And every year
Sydney falls for it HARD!
