

NEW STEEL MILL OPENED

178. Official opening at the Hownsgill Plate Mill. A big day for Britain's thriving steel industry. Before the end of the year the output will be 10-thousand tons a week. And what a spectacle it provides as the metal is rolled thin, to whatever gauge the customers order.

up.

212. This is big industry; heavy industry, in a mill 2,000 feet long, employing 400 men.

up

228. Hownsgill, most modern plant in the world, will boost Britain's steel output; nowadays the barometer of national prosperity.
