

CARNIVAL ON SNOW

Along the island-studded shore of Georgian Bay, Lake Huron, Canadians held the annual show they call Winterama, featuring Huron Indians from the Christian Island Reserve.

Then some white folks kept up the fun, playing the part of Indians. Long way to go. Winterama has entertainment for everybody, with a carnival thrown in.

Top sporting attraction, the Scoots; flat-bottomed, prop-driven, express transport over snow and water. They're the only way the islanders can get about in the long winter. Their owners brought scoots from miles around to take part in the races. All out they can easily top 100 miles an hour.

As there's nothing new about ordinary carnivals, we say thanks to the Canadians for inventing a new kind.
