

"AGA KHAN"

The young Aga Khan Karim is again in Sardinia for the beginning of the works which will make the "Costa Smeralda" (Emerald Coast) one of the most beautiful places of Europe.

The ceremony has not an official character, at the contrary, it looks like a simple week-end: we see here Karim making fun with the cameraman who is trying to cover the scene.

The Aga Khan is escorted by one of his partners, Pobliesky, and by the architects Raymond Martin, Jacques Couelle and Antoine Simon. The first building will be in the bay called "Cala di Volpe" (Fox Bay) and its name will be "Casa di mare" (House of the Sea)
