

40/35

R.A.A.F IN MELBOURNE.

The Men of the Royal Australian Air Force are marching. The clear eyed youngsters from the wide lands of the Commonwealth, are making magnificent airmen. They shoot out their arms.... stamp with the left foot.. .. and eyes right. As they pass the Governor of Victoria.... Sir Winston Dugan....they stamp again, and eyes front.

The men of Australia are playing their part in the Empire's air training scheme. They're coming forward in their thousands.

But not only the airmen.... nurses of the Voluntary Aid Detachments.... and the Legionnaires. Still they come.

And as usual our Australian Commentator has something to say about the girls.

(Australian voice)

They drive us to destruction sorry... distraction.

Melbourne has a special pride in these women.... participants in Australia's war efforts. For their marching today typifies Australia's unity in a common cause.
