NATIONAL DAY OF PRAYER.

The Empire responds to the King's call. And at Westminster Abbey, in the heart of the Empire.... the Statesmen, the soldiers, the Ambassadors and hundreds of ordinary men and women join the mighty congregation. Her Majesty... Queen Wilhelmina of the Netherlands, arrives a few moments before Their Majesties. No one here today could foresee the grave news that has come from Belgium. All the more - it is well for us to show the world that we still believe in divine guidance... and in the laws of christianity. May we find inspiration and faith from this solemn day.
