JUNK HEAP FOR JUNKERS.

.....

The particularly fruitful open season for the shooting of Nazi birds of prey, keeps the R.A.F and anti-aircraft retrievers exceedingly busy these days.

This aeroplane junk yard is undoubtedly the finest dumping ground in the world and might well become known as Geerings Graveyard.

A corner seat at the Cafe de la Junker .

Pass the salt, chum, please.

So crowded has the reception area become that the additional acres shown in the background have been acquired to accomodate the constant stream of fresh arrivals.

The blitzkrieg is in bits.....and we're still collecting.
