DOWN IN DIXIE - FLOODS

Storm disaster in Dixie. Floods following torrential rains, inundates an entire Louisiana City as hurricanes and cloud burst spread havoc through the south. Scores of cars are trapped, water from three to eight feet deep turns all streets into canals. Boats are pressed into service to supply isolated families. Keep cool is easy and this trio takes the advice literally. For the younger set the whole thing's quite a thrill. Here's one miss who doesn't let anything interfere with her window shopping. Flood or no flood a girl's just got to keep track of her figure. Townsfolk are ordered to evacuate in case the situation grows more serious. Fortunately for the marooned, there's help at hand and everyone is removed to safety.
