U.S. TANKS FOR CANADA

.....

American tanks - 1917 vintage - are to leave their resting place where they had been turned out to grass, to be sold to Canada for training purposes. Although superceded by the advance of modern mechanisation, a new life of usefulness awaits them. The purchase of these tanks will enable Canadian ⁺tank Units to use their modern machines for the stern business of war, while recruits train in these earlier instruments of mechanised warfare.
