

SOAP BOX SALVAGE.

Here's a little Aussie with a big idea for the salvage scheme.  
He's got the gang together to make collections, and registers the  
campaign with a Government official.

Mr. Phillip Berry, now State Collector of Salvage, goes into action.  
Today's schedule is a hundred pots and pans. Come on fellers -  
you're on your metal, let's get the makings for a few guns and planes.

Not badm eh? The Canterbury Salvage Corps has won its spurs.  
The Convoy gets under way with a useful cargo of alu - aluminium.  
It won't be a barrage - it'll be a Blitzkrieg.
