PATHE GAZETTE: 40-82. (DUBLIN)

U.S. ALIENS REGISTER

Uncle Sam starts the national registration of aliens and here are some of the four million foreigners who have been invited to put their names and a few other people, down on the record. All of them are quite happy about it and willing to help, among them is Madame Tabriut, the French journalist. Synd.Here.

To complete the records, finger prints are taken so that every aliens identity is well and truly established. Synd.Here.
