

A.A. Guns

41/22

2-842800

MADE IN BRITAIN.

British and best. That's what our Anti-aircraft gunners think of the guns they handle - - -The arms workers at one particular factory are delighted at the visit of an A.A. Officer who wants to see how the guns are made! The careful craftsmanship put into the work impresses the Officer, who has a chat with one of the men.

Yes, they are the worlds best, and they'll bring down more and more Nazis every day - You wait and see!
