241/33

**TWENTY-ONE YEAR-OLDS SIGN ON.**

Here's history-in-the-making. For the first time young women are registering for National Service. The first call is for girls born in 1920, and before the day is over, some three-hundred-thousand have registered. If not already engaged on work of National importance, they will be required for the Auxiliary Territorial Service, Women's Auxiliary Air Force, Women's Royal Naval Service, the Land Army, Nursing, Munitions and the other services!

Many of the girls like the idea of a uniform. Anxious to cock a military cap over the eye, no doubt!

Well, if you doubt your girl friends' age, see which call-up she attends.
