THE OLD POT AND PAN.

The call "Bring out your old pot and pan" appeals to American Boy Scouts - -it sounds like being rude to father without the risk of a tanning. Its the clarion call for aluminium (or as they call it al-loo -min-um), for the war effort. Housewives hand over, while the boys and girls collect every portable thing of the ~~xx~~ vital metal. So many pots are going the way of all good pans that they'll be falling back on old fashioned china. The whole town of Richmond rallies to a rattling good cause. Soon the pots and pans of American housewives will be flying over and helping to knock the germs out of Germany.
