FIRE DRILL IN U.S.A.

At Soldiers Field, Chicago, the firemen of the windy city show the right way to go to blazes. The vast arena is the scene of a tense fire fighting drama that starts with a thrill. 85,000 people watch a daring rope slide from the seventh storey of a model skyscraper, the fireman picking up a passenger on the way down. It's a grand education in defence against flames as the 90 foot water towers shoot into action.
