ROOSEVELT NAVY DAY SPEECH

1, V.S. President Roosevelt making famous speech on Navy Day to a large audience in Washington. He says " Many America owned ships have been sunk on the high seas. We have wished to avoid shooting. But the shooting has started, and history has recorded who fired the first shot. In the long run however, all that will matter is who fired the last shot. I have in my possession a secret map made in Germany by Hitler's Government, that map my friends makes clear the Nazi design, not only against South America but against the United States as well. Nobody who admires qualities of courage and endurance can fail to be stired by the full pledge resistance of the Russian people. Russia needs all kinds of help. The needs of her huge army to continue and our help and British help will also continue."
