NEW CATHEDRAL DEDICATED

The world's greatest Gothic Cathedral, St. John the Divine in New York City, is the scene of a solemn procession led by the Right Reverend William T. Manning, the Bishop. Today the magnificent edifice is to be opened. The great curtain that separates the nave from the crossing are slowly drawn apart revealing the cathedral's great length. It is indeed an impressive spectacle. The procession files along one tenth of a mile to the high altar where Bishop Manning dedicates the noble pile to our faith in God and the certainty that the cause of justice, right and freedom will be upheld. The flags of 14 nations are uplifted as a symbol of belief in the eternal truth. Today makes history in the annals of the Christian church.
