IF YOUR HOUSE IS BOMBED - TRAILER

You have a house, they have a house, and so had these people. You may have escaped the raids so far, but the war isn't over yet. Be prepared, just in case. These people were wise, they made arrangements beforehand to go to friends. Of course, some people haven't got friends or relatives who can put them up. They are directed by a warden or police to a rest centre where they are housed, fed and cared for. They are welcomed and made comfortable but they can't stay too long for home must be found for those who are made homeless by the next raid. They are told about new housing, how their own houses can be made habitable again. Those who have found friends will naturally feel more at home. They may be able to stay than at a rest centre, perhaps until the rehousing officer can fix them up. So if you have friends or relatives in another part of your town, arrange beforehand to go to them. Tom says "If we get bombed out we come and stay with you and if you get bombed out you stay with us, I'll get the Mrs. to fix it up". You should do the same, don't wait, talk it over now.
