

5-8-2000

GENERAL SMUTS IN BRITAIN.

Few men are more welcome in this country than South Africa's great soldier and statesman General Smuts.

Seeing the fresh complexioned, smiling face of the Union's seventy-two year old Prime Minister, recalls his parallel visit to London in 1917 when he came to offer similar and equally well-timed counsel. Not only do we welcome him as a great leader, but as a true friend.
