TITLE.:- IN SEVEREST STYLE.

Picture.:- It doesn't look much like a church, but that's just exactly what it is !

The style is said to be in advance of the times !

The dedication ceremony is performed by the --
--venerable Archbishop of Prague.

The church interior is just as severe as the exterior.

Worshippers were a little chary of entering at first --
--but big congregations are now quite the usual thing.

TITLE.:- AMERICAN ARMY RUGGER.

Picture.:- West Point cadets turn up in full force to cheer on the Army team, and very smart they look as they march on to the ground.

They lessen the tedium of waiting for the start by a display of precision --

--but eagerly get to their allotted places in time for the --

--kick off ! We're afraid it's quite impossible properly to describe this game but it's even more strenuous than our rugby. In fact--

--sometimes it looks like a fair attempt at assault and battery -- and manslaughter !

Over it goes -- well up the field to land -- Well caught, Sir ! Now see how he moves. Got him ! Ow ! -- Somebody's hurt !
