COMMENTATOR.:- Hullo everybody ! This is the Universal Talking News reporter screen-casting the latest news.

(1). TITLE.:- MARITIME MENACE REMOVED.

Picture.:- She was a good looking vessel until she went to the bottom in a collision. Then as a hulk,--

--lying in the way of shipping off Sandy Hook, she had to be removed.

It requires some considerable force for a moving job of this kind,--

--so 25 tons of dynamite, in 100 pound bags, are taken to the scene.

Divers go down into the deep to pack the explosive in, under, and around the wreck, at points where it's likely to be the most effective.

Naturally, they don't stay down long,

--and couldn't be blamed if they sent up a big sigh of relief when back once more in safety, above water.

We're now a mile away ! And here's the biggest blast - or rather blasts, seen for many a long day. That's dug a sea-grave for the hulk and the water way is clear for shipping once more.
